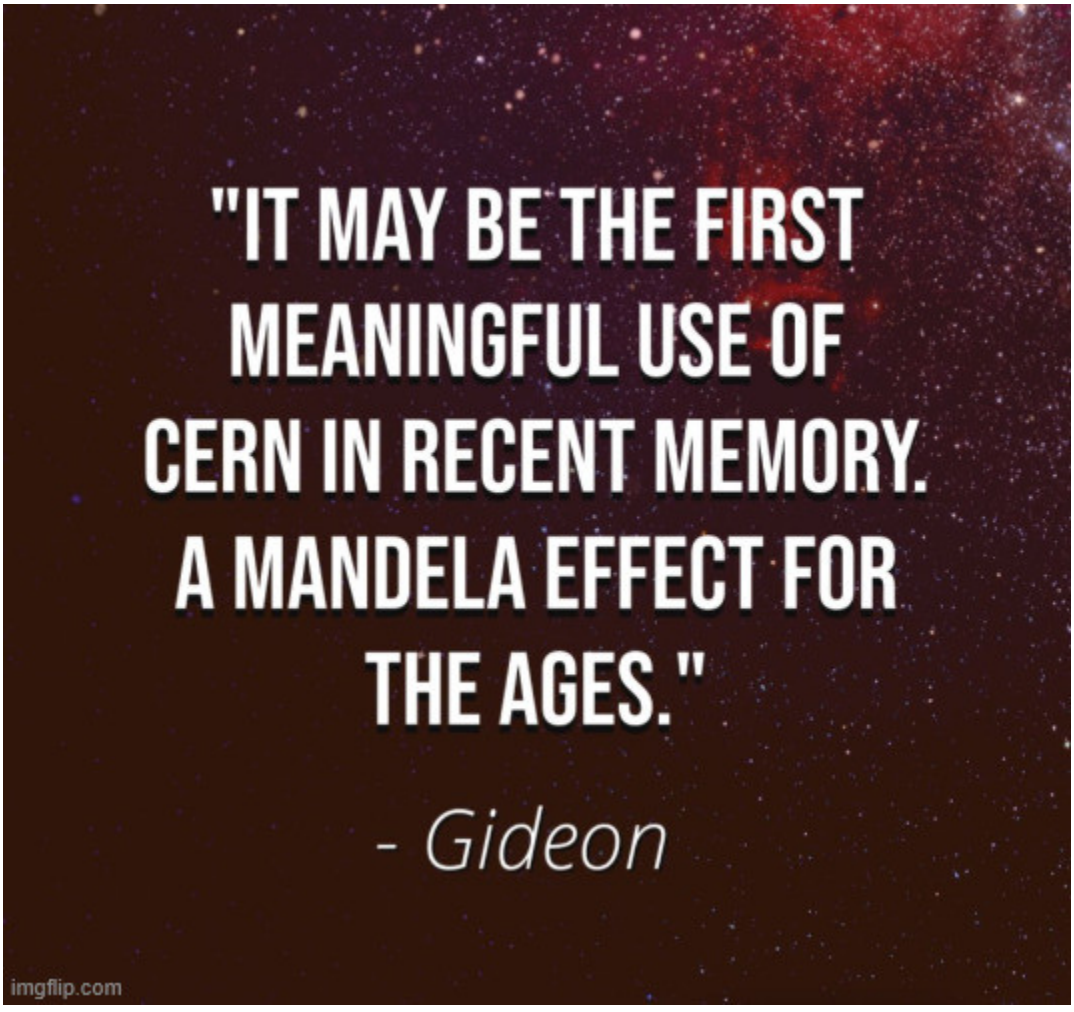
Intel Drop #70 - Digital I.D., The Beast System & The Charlie Kirk CERN Mystery

"Digital I.D. is the precursor. It is a lurch toward total enslavement. Once it is rolled out, the rest is just a formality. Obsidian will be ready."

We Are Sovereign @OculumLabs · Sep 29, 2025 · edited: Oct 3, 2025

Intel Drop #70 - Digital I.D., The Beast System & The Charlie Kirk CERN Mystery



A quick reminder, all of our articles and Intel Drops can be found on our website at **CBDCIntel.org** and you can follow **Bill's Twitter**, contact Bill personally on his **Telegram (billsweet1)**, follow our **Official Twitter**, our **News Twitter** and our Telegrams for updates (**Comms**, **Public**, **News** & **Chat**). Please bookmark and check our social media accounts weekly for updates.

Note: An **updated FAQ**, our **gatekeeper list for 2025** & our full **Intel Drop link list (#1-69)** has been posted on our website. We have also added **a new social site on Bastyon**.

A Call To Action: We are asking our readers to *share* this Intel Drop on social media, Twitter / X, Telegram, TikTok and Facebook. We have been censored, shadow-banned and attacked for over two years. Without ***your*** help, ***no one*** would ***find*** our Intel Drops.

Our Team & Our Mission: Join our efforts to *stop* Obsidian & to protect you and your family.

Intel Drop #70

Editor's Note: There are two parts to this Intel Drop. Part 1, a discussion of recent events and the cabal agenda, and Part 2, which discusses possible use of CERN & A.I. with respect to the Charlie Kirk assassination.

The following was collated from intel sent to our team from Gideon. As always, all intel sent by Gideon is edited by Michael for clarity and for obfuscation purposes (see: Adversarial stylometry):

Part 1 - The Cabal's Agenda Moves Forward With Digital I.D.

Bill: I'm glad we can talk again this week. How are you doing tonight?

Gideon: ***"I am thankful I am safe and in good health."***

Bill: Good. Before I get to the news, we've had a lot of interruptions to our comms which keeps delaying things for us. What's going on?

Gideon: ***"Increased escalation. Since we released more photos of Obsidian, we have seen an uptick in comms issues. I am concerned if we release the video showing the USDR module, it could lead to further escalation, so we are weighing how we will do that."***

Bill: I'm hoping and praying it doesn't get worse, everyday I worry we'll be completely censored, I'll wake up and it'll all be gone, I mean the website, my Twitter, everything.

Gideon: ***"That could happen. We have provisions in place so our mission and team will carry on even if that does happen."***

Bill: I'll move on to the news here and start things off with the U.K. and Digital I.D., which Keir Starmer just announced is mandatory. This is a really aggressive, chilling move by the cabal. What's your take on it?

Gideon: ***"It means we are getting very close to the end game, because Digital I.D. is the precursor. It is a lurch toward total enslavement. Once it is rolled out, the rest is just a formality. Obsidian will be ready."***

Bill: I hope it's waking people up, seeing this tyranny, but you know what I'm seeing? I see a lot of people saying, "Well, I just won't comply." Will that work?

Gideon: ***"Non-compliance is not a realistic solution for most people. All we have to do is look at China to see what happens to people who resist.***

We will see people complain online, but when it comes to their job, putting

food on the table, I think most people will get the BritCard or comply with Digital I.D. measures worldwide. You will see a lot of rationalizations eventually, to say, 'We already have driver's licenses, maybe this is OK.' But it is not OK, at all."

Bill: Now you've got Danielle Smith, the Premier of Alberta, Canada, who people thought was some great freedom fighter, now she's implementing Digital I.D. there, too. She's a Provisional Sovereign on our gatekeeper list, so we were right about her. We're also seeing Singapore, Thailand and Vietnam moving forward on Digital I.D. Who is next?

Gideon: ***"If one does the research, they will find almost every country has a Digital I.D. and CBDC program in process. Over the next six months, they will be brought online. This is the beginning of the end."***

Bill: We're going to get to Charlie Kirk in Part 2 at the end of this Intel Drop, I just wanted to briefly address it. A lot has happened since we released our last Intel Drop. We really focused on the official story and the gunshot, where it came from. Since that point, what's changed in your mind, in light of so many new developments?

Gideon: "The assassination appears to be a capstone event for the cabal, similar to 9/11, and portends to planned events to come.

It is also a showcase of what the cabal's A.I. can do and that concerns me, the power of it. What will they use it for next? That is a question I am asking my sources, who all believe a major catalyzing event is coming."

Bill: There's a ton of talk of how Pete Hegseth, the U.S. Defense Secretary, is bringing all the generals together for a meeting, there's a lot of buzz about that. I saw someone say it's related to a worldwide threat or Comet Atlas. What's going on?

Gideon: ***"War preparations is the cover story."***

Bill: What kind of war?

Gideon: ***"Europe. Russia is going to become a lot more aggressive, and we are really looking at the cabal here initiating a World War III scenario.***

But, there is another reason for it, one a source told me. I was asked not to discuss it in detail, but I can give some general thoughts on it."

Bill: I see, first address the cover story, the war. Will nuclear weapons be used?

Gideon: ***"No, we are talking about a world war that will involve cyberattacks and power outages, along with the use of biological weapons. Tensions will be very high in 2026.***

Watch as airline flights get disrupted, that is already happening, you will not be able to fly or travel. I have warned this is all coming, we are very close to it."

Bill: Now the second reason, or the real reason.

Gideon: ***"The A.I. is more present in our reality and daily life than we realize right now. It is more powerful. The gathering of the generals has something to do with it, but I cannot state the exact reason here. We will be escalated and everything deleted if I do. It is classified top secret and under the SCI protocol.***

I would just warn everyone, things are going to move at rapid pace soon, and not to trust the U.S. Government or Trump under any circumstances, no matter what they try to sell you on what is about to happen."

Bill: Alright. I posted a Tweet about the nano dust "restructuring" or changing certain people's personalities, sent in by a supporter. It's very detailed, describing how

people are changing and how they're not the same. I encourage people to read it. What is your intel at this point on the Starlink activation and nano dust testing?

Gideon: ***"It is on-going, and for those paying attention, like the supporter who sent you that message, you can see and find examples of it in life around you. No one is safe from it, we have warned over and over of how serious this is.***

People are changing, they are not the same, and this will continue. You will lose friends and family, people you thought you could trust, they will change."

Bill: I don't think people understand the dangers here. At all. They think they can op-out and somehow avoid this. You've told me it can't be avoided, not in this life or the next, without proper knowledge or preparation. Please give people a real sense of what's coming.

Gideon: ***"Once all of this is online, you will come under the auspices of Obsidian and its social credit system. If you need a preview of that, please look carefully at the whislteblower photos we released. You will be tracked, monitored, and held to account for your behavior.***

When the WEF wrote in 2016, '8 Predictions For The World In 2030,' they said, 'You will own nothing and be happy,' they meant it, the cabal meant it. They also described a 'rental' world.

Well, how can a rental world exist if people own land and homes? It cannot. So, the plan is to steal everything, and they are doing that and they will do that. People are going to lose everything, and financially they are going to be totally wiped out.

Right now, people have no access to USDR, the future currency, but the cabal does and they are acquiring it zealously. That is going to create a world where the cabal controls all of the wealth, all of it, and the rest will get a small trickle of what they allow through Obsidian and its UBI component.

Furthermore, nano tech was placed in the food supply, something we have exclusively revealed and reported on. It is linked to Starlink, and Starlink interacts with your body and the nano dust. Through this they will create a mind-control vector.

It is not active yet, only in testing phases, but we will all be subject to it unless we are Sovereign status in Obsidian. Those who are Sovereign status, like our team, will have access to the antidote to disable it.

I cannot over-emphasize enough the severity of what we are facing. This is not a theory, it is not a possibility, it is going to happen and it is already happening. You cannot just opt-out of it and refuse it. You can try, but there will be severe consequences in doing so.

The only way to protect yourself is to be on our team, I can think of no other way, because of the nano tech and antidote issue."

Bill: People say we're fear-mongering, we're scaring people, we're offering no hope. Please explain why we're doing the opposite.

Gideon: ***"Well, we are the only ones I can see who are actually fighting Obsidian and have a plan to defeat it, or destroy it. No one else has any plan. People can join our team and be protected. I would say that is very hopeful, not fearful.***

Furthermore, to deny Obsidian is to simply deny reality in front of us. You do not even need to read our Intel Drops to know what is coming. It is not fear-mongering, it is simply the truth."

Bill: There's others issuing warnings, people like Catherine Austin Fitts and Dr. Mike Yeadon, and I might throw Whitney Webb into that. These people are saying the same things we are, but they don't have the real software itself or social credit details

we have, more just general info the cabal is releasing.

Gideon: ***"Yes, they are referencing the cabal's own material that has been published, much of it by the E.U. and WEF. Unfortunately, despite their reporting, there is nothing they can do to stop it, at all, because they are not even aware of the real plan or software or classification system.***

The public at large is not going to stop it because they are completely under the spell, hypnosis and mind-control of the cabal."

Bill: Is the cabal creating an "end of days" scenario that involves the destruction of Israel? I'm including a link here that describes how "all the nations will turn against Israel", which seems to be happening, especially in light of the U.N. walk-out the other day.

Gideon: ***"We know this is happening, the world is turning against Israel, and that means the end of days are at hand. My information strongly suggests the cabal and certain top Jewish rabbis are actually scripting events so the prophecies are fulfilled, I have said that before.***

That means The Book of Revelation is at our doorstep. Whether you are a Christian or not does not matter in terms of believing this, what matters is that the cabal believes this and wants these prophecies to happen. That should let you know the Beast system is upon us."

Bill: You told me everyone needs to read The Book of Revelation, preferably from an old Bible, a physical copy.

Gideon: ***"Whether Christian or not, they should read it. It is the guidebook the cabal is actually using. They intend for you to not be able to buy or sell without the Mark. That is what Obsidian is."***

Bill: You've warned about A.I. repeatedly. I'm seeing average people using A.I. all

the time, it's taking over their lives. One thing I see a lot is A.I. writing and text. People use A.I. instead of writing in their own words. It seems 'off' to me, in reading it. Please explain what's going on there.

Gideon: ***"In terms of the A.I.'s ability to write? Well, I believe the writing transmits coded messages. I would highly advise not reading it and avoid anyone who uses it extensively, or at all. You should not be having the A.I. write for you."***

Bill: I don't even like it, but I can see why people do. I think it's terrible, though. Now, you've told me not all A.I. tools are bad before, please explain.

Gideon: ***"They are not, because inherently they are using computational models based on traditional computer architecture, which is simply ones and zeroes, math and logic-based. There is nothing inherently wrong with that.***

My issue is that some of the models are more than what we are being told.

I have sources who have told me they are conduits, they are going to start out using the normal architecture then they are going to introduce the cabal's own advanced inter-dimensional A.I. into them without people realizing it, secretly.

I have been told they are already doing that. That is the real danger. It explains why some A.I. images, well, many of them, have an eerie or odd quality to them.

Those images are actually being formed in another realm, another dimension, one that is full of evil."

Bill: They're almost demonic, to me. You refer a lot to the cabal's A.I., how is it different?

Gideon: ***"It accesses other dimensions and entities. It accesses a type of***

sentient A.I. that exists in the astral realm, the astral Earth, where many of us will go when we die if we have the nano tech in us.

It is extremely powerful. It is completely evil, dark and deceptive, controlling and insidious.

These are very controversial topics, I am aware."

Bill: Well, we've explored all that in past Intel Drops, people can go read in-depth on that, especially our *Cosmic Rules Are About To Change* series (links are at the bottom of the Intel Drop). One more question here, what's the biggest deception you see right now culturally? In terms of people's belief systems?

Gideon: ***"That is a very good question. I am seeing a post-New Age philosophy developing, that is being distorted by cabal gatekeepers who are pushing Simulation Theory and actually giving people things very close to resembling the truth, but leaving out a few, key points.***

For example, we are seeing the popularity of Near-Death Experiences and Astral Travel content. Some of it is worthwhile, but much of it is utterly deceptive, as well. I am seeing a lot of Channeling content that is deceptive, such as Bashar, and a lot of Alien / E.T. content that is completely, utterly deceptive.

People are being drawn into a model of the world that is actually more accurate than the Einsteinian model of the material universe - which is false - but it is still a minefield of lies that awaits them when they begin to see the world for what it is.

So, it is not an awakening to a '5D' reality, at all. It is a false awakening to it.

At the core, the cabal's goal is to separate mankind spiritually from God, from the Creator, in this life and the next. That is Obsidian's goal, of many goals, but

it is the main one.

There is another agenda beyond all of that too terrifying to even contemplate, having to do with soul capture, containment and imprisonment. There is even a plan to trap and capture people in physical but cybernetic bodies that live forever in this dense, 3D realm, so their souls never ascend."

Bill: Thank you for putting that together, we've talked about some of that in the past *Cosmic Rules* series, but it's good to hear it summarized. It's a ton of things we need to discuss more in-depth. Maybe an 8th entry into the Cosmic Series is in order?

Gideon: ***"That would be appropriate, if time allows."***

Bill: Good, we'll plan on it.

Part 2 - Charlie Kirk, CERN & Bizarre Synchronicities

Bill: The Charlie Kirk assassination story has completely blown up ever since our last Intel Drop. So much has come out. You still believe this is a significant event, correct?

Gideon: ***"I do. It is not to be dismissed lightly. This was an important cabal ritual."***

Bill: There's fifty videos talking about ten different possible shooters, blood packs being removed when they all rushed to his body, they're saying there was a trap door, they're saying there's not enough blood, there should be blood all over, it's faked, he's still alive, it was a fake Freemason ritual, or the Q Anon people think it's some great thing Trump did to expose the deep state, on and on. Can you address any of that, the far out theories?

Gideon: ***"Yes, a few. Discussion about the blood. If he was shot in the neck,***

someone would wrap something around the wound or try to block the bleeding right away. Anyone would do that. Or, if his heart stopped, bleeding would lessen.

So, I would not expect to see a lot of blood or a trail of blood, necessarily. It does not mean a movie-style blood pack was used, I see no evidence one was used, but it is possible. The blood issue is just inconclusive, it could happen either way, whether faked or real. A faked event might have a lot of blood, a real one might not, or vice versa.

In terms of the trap door, yes, there is a photo of it, but you do not really need a trap door to fake anything. That is inconclusive.

I would also question if the trap door photo is real or not. The cabal could be creating false Easter eggs, red herrings or rabbit holes for people to waste time on. The cabal's A.I. can create perfectly realistic photos that are imperceptible from real ones."

Bill: What about Tyler Robinson being at that Diary Queen, photographed in front of a Superman movie poster, then later a friend of Charlie's says the surgeon describes him as a 'man of steel' who somehow blocked the .30-06 bullet from passing through his neck, it lodged there. In June, the official White House Twitter account had posted a big thing about Superman. Strange symbolism. What about all that?

Gideon: ***"Tyler Robinson is a patsy, this is not in doubt. I find the comments about the bullet absurd. There is no way a .30-06 would not pass through him, but we are pretty certain he was not even hit with that caliber, probably much smaller.***

What the surgeon describes is questionable. His 'man of steel' comment tying into the photo of the movie poster, I found it very odd, very possibly entirely scripted and made up out of thin air by the cabal's A.I.

They are creating some kind of symbolic narrative here. I have called it spellcasting, in other Intel Drops."

Bill: We didn't think of this as a totally faked, scripted event after it happened, it certainly looked real, but we're both leaning toward it being very scripted, right?

Gideon: ***"Yes, scripted, but not necessarily fake. Many things have emerged since the shooting, since our last Intel Drop, illustrating that the official story is not only complete nonsense, it is so poorly constructed it suggests almost all of it could be manufactured.***

I would say if it were faked, they did an excellent job, especially Mr. Kirk's reaction. We simply do not know at this time whether he was hit with a bullet or if it was a fake, staged squib. We know some kind of shot was fired from a gun, not from the roof, but that could have been a blank.

There is no evidence or proof either way. We are relying on official statements from government sources we know for a fact lie for a living, and a few images and videos that simply do not show enough for us to conclude either way if it was a real bullet or a squib.

It looks real, his reaction is very realistic in terms of him really being shot, but I have also seem some arguments that it does look like a squib, too. We do not know at this time."

Bill: There's a ton of talk of the people around him, giving signals, firing wrist guns and so on, a lot of it I found unconvincing, until I saw this. A video of the security guard literally pushing Charlie off his chair after being shot. I thought that was really strange.

Gideon: ***"You showed it to me and while it appears strange at first, most security are trained in that situation to get the protected asset to the ground***

immediately to prevent further shots from reaching him.

A second and third shot could be coming seconds later. Gently helping him down to the ground could actually result in another shot hitting him.

To me, it is inconclusive, and I am inclined that this is normal protocol. With that said, if you were faking this, you would want to get him to the ground quickly so the fake squib could not be viewed much after it exploded."

Bill: What about the big memorial for Charlie in Arizona? Trump was there. Did you watch it?

Gideon: ***"Part of it. It was partly touching and appropriate, and partly inappropriate, things I saw. Clearly, opportunists around Trump and Turning Point USA are taking advantage of his passing to further the cabal's agenda and their own careers. It is unseemly."***

Bill: I'll share a video here about Erika Kirk, among a few on a channel people might want to look at, I think the person doing it, a Joseph Acquaviva, he's doing a good job. The channel also talks about the Snake Eyes movie, which I'll get to. Everything I'm talking about here suggests foreknowledge, almost like the Back To The Future movie synchronicities with 9/11. What do you think? We've already talked about this, so maybe recap it for the Intel Drop.

Gideon: ***"I examined all of this, Bill. With respect to these new synchronicities, which were not widely known the first week after the shooting, we first theorized that this is advanced A.I. fitting the past to the future event, the assassination, so it would synchronize with the past.***

This is done as a marker, a ritual, symbolism, and possibly to create distracting rabbit holes for conspiracy theorists to waste their time on, too.

There is also a great deal of numerology and gematria associated with the

assassination, but I am not an expert in these areas so I will not spend time on them, but readers can explore that as well.

There is another possibility, too, and that is that the cabal used CERN to change the past. Beyond that, we reach into even more exotic possibilities."

Bill: We'll get to all that, but first I want to get readers updated on these synchronicities. The coincidences with the movie Snake Eyes, for example (click here for an additional list posted on X showing all of the synchronicities). It's a 1998 Nicholas Cage film, I remember it but I never saw it myself. In it, a Charles Kirkland, a political guy, gets shot in the neck at a boxing match featuring an "Executioner" "Tyler" as one of the boxers, with the shooter, a different person than the boxer, having the initials of "T.R.". Filmed at a Trump casino. Meanwhile, we know Charlie Kirk's father helped design Trump Tower! The fight in the movie also took place on September 10th, the same day Charlie Kirk was really shot. One other thing, in the movie Charles Kirkland was resisting giving more arms and missiles to Israel, in the movie he's taken out by a patsy who is framed. So all of that lines up with Kirk's actual assassination. There's even a police van at the end with the number "47" on top of it, same as the 47 on the hats Charlie was giving out at the rally. It's not just a couple coincidences here, it's up to seven or eight signficant ones, maybe a lot more. (**Editor's Note**: For a complete list of synchronicities, visit Bill's Twitter and view his recent re-tweets of threads listing them, including posts about the Tempest South Korean TV series with synchronicities equal to Snake Eyes, released on September 10th, 2025. It is also confirmed that the Snakes Eyes VHS copy included a trailer for a *"Dead Man On Campus*" film. Charlie Kirk, allegedly, died on a campus.)

Gideon: ***"It appears to be September 19th in the movie, so I will correct you there, which is very close but not exact. And do we know for sure Kirk's father worked on Trump Tower? What do we know about Kirk's parents? Almost nothing, except the mother had ties to the Department of Defense. I would want to explore the father's background but there seems to be nothing known***

about him.

Now, the synchronicities in the film are stunning, they are. We have to ask what happened here. Did the cabal plan this from 1998 when the film was released? I find that virtually impossible because Charlie Kirk was 4 or 5 years old at the time the film was made.

How could they know he would become a political figure they would need to assassinate, and place synchronicities of that future assassination in a film they would make? I find that implausible. They could do that with 9/11, a major event planned for decades around towers that were not going anywhere any time soon, but not with a human being whose future and actions could not be predicted.

But could they use their A.I. to scan and search all films in the past and find one that they could use to create events in the current time to match that film? Possibly.

They could find a film with the name Charles Kirk, Kirkland or Kirkman. Preferably, filmed at a Trump property or related to Trump in some way, because they want that synchronicity. They find Snake Eyes matches these conditions, so they start from there. The boxer is a Tyler, so they create a Tyler Robinson patsy in the current time. They decide to tie Kirk's father to designing Trump Tower, whether he did or not, we do not really know at this time. They make sure Kirk is shot in the neck like in the movie. They make sure Kirk is throwing out '47' hats like the number on the police vehicle. Now, they have created synchronicities with A.I.

The other video is a music video Mr. Kirk's wife appeared in over 13 years ago. In it, she is seen near the number, or time, of 9:10, which could represent September 10th, his death, and the time of 10:10, possibly October 10th, a future date, and in a comment she leaves about the music video she refers to

'shooting' the video with a 'Tyler'.

Here, we find, again, the A.I. searched the past and found notable data to create a current synchronicity. They then plan the assassination on September 10th. They ensure a 'Tyler' is the patsy. Gatekeepers ensure Snake Eyes and Erika's video are seen. This completes the loop.

Bear in mind, I am speculating here. I am not saying this is what happened. I am describing how current A.I. could use past material to create a series of synchronicities."

Bill: That's one theory, but there's another, that CERN changed the past.

Gideon: ***"Yes. They have changed the Bible with CERN, so they could change the film Snake Eyes. I find that exceedingly unlikely, because to utilize CERN for something like this takes the absolute highest levels of the cabal to approve it. But, they could have. It may be the first meaningful use of CERN in recent memory, a Mandela Effect for the ages.***

Now, people need to research and find whether there is 'residue' left behind showing the original, real film. A Snake Eyes film on VHS tape somewhere that might show a different name for the political victim, instead of Kirkland it is something else, maybe Smith or Jones. The date might be May 19th, not September 19th. It would be the same film but with a few changes that do not correlate at all to Charlie Kirk. This would be something to look at.

In terms of Erika's video, that could be altered, too, but I would say the movie is more likely what was altered if CERN was involved in changing the past because it has far more coincidences. They would find Erika's video, base an assassination on the 9:10 timestamp and her comment about Tyler, two things entirely innocuous in and of themselves, and find a film made on a Trump property, of which there would be a decent sample, maybe ten or so, and then change things in that film to fit the planned narrative based on Erika's music

video, "9:10" and Tyler.

Very complex, but between the use of advanced A.I. and CERN, entirely possible."

Bill: Mind-blowing, I believe they did that. I just can't believe how coincidental it is. They would have had to change a lot in the film.

Gideon: ***"I think that is what is making me even question whether the past was changed, because so much was changed. Most Mandela Effects are very small changes, one-off changes. This would be an extensive edit of the past. The only thing comparable is the changing of the Bible, which tells us they can do it."***

BIll: I've seen more than a few people reference the VHS tape of the movie and none of them are reporting that the old movie is different than a new DVD copy or online copy. Then again, we have to trust what these people are saying. I'd like to view a VHS copy to know for sure. Even that wouldn't be certain, right?

Gideon: ***"No, VHS copies could be changed with CERN. CERN has changed many things. Finding residue is difficult, you have to find a few things CERN was not able to find or change. We think CERN can somehow scan or view time in slices or frozen intervals and find products or things and specifically change them.***

For example, many believe the movie Moonraker was changed at the end, which is also one of the most well-documented Mandela Effects. To do that, all copies needed to be changed, but not every one of them was changed. People have found old VHS copies that show the original, the girl with the braces. This is residue. It is not always easy to find.

In the case of Snake Eyes, the changes are so significant, this would be a

major test and use of CERN, the most ambitious since the Bible. I would venture that errors probably do exist, if this was done, but they may be very hard to find. If they are combining advanced A.I. now with CERN, there may be no residue left at all."

Bill: You described the first theory above, before the CERN one, saying A.I. could search the film category of all known film and find something to 'fit' a story they could create, but you have reservations about that, please explain again.

Gideon: ***"The A.I. theory does not require changing space and time, so it is more believable, but the film Snake Eyes contains too many specifics.***

Yes, I am sure in the entire catalog of all films, you could find a man with the name Charles or Charlie Kirk, Kirkland, Kirkman, something about a shooting, a few things to tie into the assassination, or things you could then create around to create false synchronicities, but Snake Eyes has too many specifics for me to believe it is just an old film they managed to fit into their narrative.

It could be, but I am doubtful. I am doubtful of the CERN theory, as well."

Bill: For another theory, what if there was no A.I. or CERN used, and we're looking at a very spooky ritual whereby Snake Eyes intentionally placed 'markers' within it in 1998 for an event they knew was coming involving 4 year old Charlie Kirk?

Gideon: ***"That presents something inconceivable, perfect knowledge of the future. Perfect. I have trouble with that one. Yes, the cabal has looking glass-type technology to see the future, but as far as we know, it is not perfect, at all. It can see possibilities, they can map out actions to take to fulfill those possibilities, but it is always changing.***

It would also imply they had all of this technology in 1997 or so and that they could see perfectly up to 2025. They could see Charlie's entire life and his

eventual turn against Israel, a subplot they would then put in the film. It is very, very hard to believe."

Bill: My final point here, what if these are just happenstance? People reading too much into things? Coincidences but nothing more? I've seen a few debunkings, but they aren't very convincing, more just dismissive.

Gideon: ***"It could be happenstance, but put together, they strain statistical probability. We are talking about the chances of all these things coinciding probably being in the range of 1 in 1 Billion or even Trillion, something like that, maybe higher when you include things like the subplot about Israeli arms sales, something that ties to Kirk. Too many data points match up to the assassination, key points. Names, dates, specifics.***

We might want to test if these things could be found in other films, too, as I mentioned before. Can we find other Kirks, September 10th or 19th assassinations, a shot to the neck, a patsy, the name Tyler, filmed at a Trump property, all lining up in other films? Or videos? Or things like Erika's music video?

If it is more common, we could say it is happenstance, but I would say it will be probably impossible to find other examples that line up so perfectly. I would want to know, though, to explore that."

Bill: I don't think people realize, either, how big the synchronicities with Snakes Eyes are, especially the term "snake" which even references Trump with his famous snake poem, Orem, Utah meaning "serpent", and this year being the year of the snake in the Chinese calendar. I'll reference this Twitter post for those who want to see all of that.

Gideon: ***"They are significant, calling into question whether CERN has the power to make so many changes so convincingly. The other possibilities are***

harder to accept, such as the cabal's ability to see the future so clearly.

I wonder if some of the actors or writers on the film will be questioned? I suspect they will be, though we really cannot trust anything they may say one way or another. More research will happen on this film and a lot more will come out.

If it is discovered nothing in the past was changed, and the film was filmed exactly as we see it today, no residue is found, it will call into question our understanding of our world. It would mean the cabal knew of events in 1997 that would happen in 2025.

It could also mean someone time traveled or sent the information back in time to be placed in the film, which presents various paradoxes and questions. So, that is a bit different from CERN changing the past.

It would mean in the months heading up to the assassination, they knew Kirk was a 'problem' for Israel, so they sent the information back to the filmmakers in 1997 or so and told them what to put in the film, a variety of little references.

They would already have the patsies ready, Robinson and Twiggs, they would add little touches, and ensure something like the '47' hats are at the Orem, Utah event and that 47 is added to the top of a police truck in the film.

That is how I see time travel working out here, once details of the coming assassination were known in this time, this year, they send those back to 1997 and have them put in the film. It is done as a ritual.

We do not know at this point, we are speculating on everything. We are theorizing, nothing more."

Bill: You spoke to one of your sources recently about this, what did they say? You've told me, but for the purposes of the Intel Drop, please repeat that.

Gideon: ***"They told me the CEO of Oracle, Larry Ellison, is involved, to look at him. They said they have A.I. beyond what we can mentally comprehend and they are using it for evil purposes."***

Bill: Alright, that gave me something to look into. People are talking about Skydance, which Ellison owns, and a film produced by Skydance, Mission Impossible: Final Reckoning, it's all about an evil A.I. taking over, and the U.S. President is a female with the first name Erika, the same name as Charlie's wife, except she's played by an African-American actress and Erika is a name of Norse origin. So, it's not a name you would expect to be applied to an African-American actress at all. So why that name? And political in nature. That's just my basic research, I haven't even watched the film, there may be a lot more. Oh, Skydance produced the 2021 filmed called Snake Eyes: G.I. Joe Origins and the TV show Tempest, the one released on September 10th that contains the entire plot of Charlie's assassination. Skydance was created in 2006 by David Ellison, Larry Ellison's son, and Larry himself is completely involved in A.I. and even talked about, basically, Obsidian, how they're going to track everyone and control behavior.

Gideon: "*Well, there you go. That may be a rabbit hole worth going down."*

Bill: It's just incredible, all of it, but I remember 9/11, the same thing, the research people did to find out what really happened was all-consuming. You said this is a similar event, it's obviously a very complex cabal ritual. My brain will get fried thinking about this Kirk stuff, maybe that's their plan, you keep saying the cabal wants people to obsess over it.

Gideon: ***"I really believe they do, and if that is true, then we need to be careful not to play into their hands.***

Everything with Snake Eyes is too obvious, too known now, too present. The cabal wants people to look at this, whereas the 9/11 foreshadowings were quite hidden. So, there is something different here.

Now, if discussion about Snake Eyes drops off or gets censored, we will see and time will tell."

Bill: In any event, now Erika takes over as the CEO of Turning Point USA. What do you think of her? I shared some things, very strange things about her.

Gideon: ***"A cabal asset. You have shown me people are already connecting the dots there. There is nothing I can add because I have no additional intel on her. She is not to be trusted whatsoever."***

Bill: Am I forgetting anything here? Anything we talked about before we want to include here?

Gideon: ***"Yes. There is the possibility Mr. Kirk's shooting was entirely staged, fake, and he was aware of it, but not in the way you think.***

He could have been told a series of lies or half-truths by the cabal or cabal agents. He could have been told this had to be done to save him because otherwise Mossad would kill him. Some of his close friends and family might be told this, to be ready for the fake shooting.

But then they kill him later, and they continue to tell close friends and family he is in witness protection when he is not. They may tell them in a year or two he passed away or something happened to him, and to stay quiet or their lives will be at risk.

Why would they do this? Because it would be part of the ritual. Part of the ritual to perform a fake shooting on the public, to lie to them, with every intention to get rid of Mr. Kirk at a later time, as well.

Now, the idea Kirk was fully 'in on it' and is now in witness protection, and the cabal has every intention of saving his life and giving him a new identity? That the Trump Administration has some big plan to reveal the truth to people? There was some patriotic plan to kill Kirk and bring him back?

I do not believe that. The people selling that, like Juan O'Savin, are cabal gatekeepers and liars, too. If the Q Anon peoples' lips are moving, we know they are lying."

Bill: Alright, very, very interesting, I hadn't considered that at all and I haven't heard a single person present the theory you've just presented. Amazing, I've got to think about that one, he's in on it, but not really, they kill him later. I can see that actually being what happened here.

Gideon: ***"This was very well-orchestrated. I also believe some of the laughable holes in the official story are intentional, which means the cabal is operating multi-dimensionally, at a very high level in terms of this psy op, because there are so many layers. We have to think differently to understand it.***

We also have to remember the vast majority of people have not questioned this at all, they think some radicalized kid did this who had a transgender romantic partner, and that is all there is to it. The vast majority of the public is being actively psy-oped."

Bill: I agree. I'm going to bring this to a close. We've had to leave out basically an entire other section, what would be a Part 3 probably, because of escalation risks. If people knew what I know, they probably wouldn't be able to sleep at night tonight. I wish we could share some of that but the mission is more important.

Gideon: ***"It is, and the public response is not supportive enough. One of my whistleblowers does not want to come forward because they see no one is really taking action, people are not really supporting us.***

People read the Intel Drops but they do nothing else [to help us].

My whistleblowers are disheartened by gatekeepers getting a million views per video, while your Twitter is heavily shadow-banned. I think they are just worried for their lives and see no benefit in coming forward publicly."

Bill: I don't blame them one bit. Please leave people with some final words and push them to act, because I'm getting really frustrated with the lack of action.

Gideon: ***"We have a mission and a plan and we do need people to help. If you find it in your heart or you are moved to take action, we are here. We can protect you, we do have access because of the whistleblowers to Obsidian, so that has given us a chance to fight this once it is online."***

Bill: Well, you kept that short and sweet, and I know why. You told me your guide said those who are intended to come to us, will come.

Gideon: ***"Bill, I know you are frustrated, but we do have a solid team. I would like more, but my guide said they are coming and they will be called to us. We will wait. There is not much time left, but there is just enough, and we will wait for them to join us."***

Bill: Good, I look forward to that, I want to see it happen, because I'm so upset with people, the apathy! My God, people just don't care, it's not just us, it's everywhere, nobody is doing a damn thing to stop anything or rise up.

Gideon: ***"I told you the other day, pray to God, Bill, ask for peace. Your heart is very restless, I do not blame you, but I want you to pray. Renew your faith.***

This is not about the public, we cannot save the public, they are already lost."

Bill: I will, thank you for reminding me. I need to. Anyway, thank you for another

amazing discussion. I hope we'll have a few more before all of this happens. How long do we have left?

Gideon: ***"Until the end of the year."***

Bill: Ok, God bless, we'll talk again soon.

Gideon: ***"We will, God bless."***

Our Team & Our Mission: Join our efforts to *stop* Obsidian & to protect you and your family.

Please ***share*** this article, so we can keep spreading the word. **Join our Telegrams** (group, announcements, news, spiritual discussion). Join **Bill's Twitter here, and our official We Are Sovereign Twitter here. Our official email** is securecommssov@proton.me.

Update: We continue to see serious problems with email. Emails like MSN, Me, iCloud, Outlook, AOL, Gmail, Gmx, Yahoo, Hotmail, Comcast and many others routinely BLOCK and CENSOR our emails. These email providers are also known to read your emails and offer *no* security at all. No one should be using them, but many people who contact us are using them.

We recommend opening an anonymous account using Proton.me, Hushmail.com, Tutanota.com. These providers are end to end encrypted, and have proven they do not block our emails.

Update: If you have recently found our information, we recommend reading all of our posts going back to July of 2022, which have covered a multitude of issues in detail. You can find an introductory article here, our *new* Intel Drops here, and our *older* (censored) Intel Drops in our full link list.

Note: We also recommend reading our *Cosmic Rules Are About To Change* series of Intel Drops for the full context of what is transpiring from a spiritual perspective (Part 1, Part 2, Part 3, Part 4, Part 5, Part 6, and Part 7).
